SECTION SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): Amendment 0003

1.) The closing date is extended to 4:00 PM EDT, 05-May-2026.

2.) The attachment numbers are reformatted and an Index File is added as Attachment X. Offerors are responsible to review each attachment to ensure compliance with the solicitation.

Attachment I USNCC Consortium Agreement
Attachment II USNCC Data Sharing Technical Requirements
Attachment III USNCC CIAS Definitions
Attachment IV USNCC Academic Program Classification
Attachment V USNCC Naval Studies Certificate
Attachment VI English 101 Overview
Attachment VII ACE Credit Recommendations NS Certificate
Attachment VIII USNCC CIAS PWS
Attachment IX Pricing Sheet
Attachment X Attachment Index
Attachment XI Solicitation Q&A
Phase 1 Form Institutional Characteristics
Phase 2 Form Academic Capabilities

3.) The page limitation instructions have been updated in Section L of the solicitation.
Volume I: Non-Price Proposal Submission Guidelines

The "Non-Price Proposal," referred to as Volume I, is strictly limited to a maximum of 55 pages in total. This page count is all-inclusive, covering all content such as charts, diagrams, and other graphics. The proposal consists of four key evaluation factors, each with a specific page limitation. The Offeror's submission for the Academic Capabilities section must be integrated into the complete Volume I package.

Breakdown of Non-Price Evaluation Factors

Evaluation Factor	Associated Form	Page Limit
Institutional Characteristics	Phase I Form	5 pages
Performance Approach	N/A	8 pages
Academic Capabilities*	Phase II Form	36 pages
Past Performance	Past Performance Info. Form	6 pages
	Total	55 pages

*Note on Academic Capabilities: Offerors are permitted to propose a maximum of 18 distinct academic fields. Each proposed field must be detailed within the Phase 2 Academic Capabilities Form and is limited to two (2) pages per proposed field. The Academic Capabilities non-priced factor is limited to a maximum of 36 pages. (18 distinct academic fields x two (2) pages per proposed field = 36 maximum number of pages). Example: University proposes three (3) fields x two (2) pages per proposed field = 6 maximum number of pages for this specific non-priced factor.

The individual page limits for each evaluation factor will govern the length of the respective sections. The total length of Volume I will be the sum of the pages submitted for each of the four factors.

4.) Q&A Form updated with questions and answers, and reformatted as Attachment XI.

Section A - Solicitation/Contract Form

The following changes have been made:

INFORMATION	FROM	TO
Response Due Date	30 Apr 2026	05 May 2026

Section J - List of Attachments

The following attachments were added:

Attachment I - USNCC Consortium Agreement
Attachment II - USNCC Data Sharing Technical Requirements
Attachment III - USNCC CIAS Definitions
Attachment IV - USNCC Academic Program Classification
Attachment IX - Pricing Sheet form
Attachment V - USNCC Naval Studies Certificate
Attachment VI - English 101 Overview
Attachment VII - ACE Credit Recommendations NS Certificate
Attachment VIII - USNCC CIAS PWS
Attachment X - Attachment Index
Attachment XI - Solicitation Q&A

The following attachments were deleted:

Addendum I USNCC Consortium Agreement
Addendum II USNCC NS Certificate
Addendum III English 101 Overview
Addendum IV ACE Credit Recommendations NS Certificate
Attachment I USNC CIAS PWS
Attachment II USNCC Data Sharing Technical Requirements
Attachment III USNCC Academic Program Classification

Section L - Instructions, Conditions, & Notices to Offerors or Quoters

Miscellaneous text in this section has been modified to:

FAR 52.212-1 "Instructions to Offerors - Commercial Products and Commercial Services"

The following will be included in the solicitation (using estimated dates that are subject to change):

SUBMISSION OF PROPOSALS (BEST VALUE/TRADE-OFF)

52.216-27 Single or Multiple Awards. (OCT 1995)

The Government intends to award multiple task order contracts for the same or similar supplies or services up to 15 sources under this solicitation. However, the Government reserves the right to award to fewer (less than 15) or additional sources (in excess of 15) if the Government determines that it is in their best interest.

(End of provision)

FAR 52.212-1 "Instructions to Offerors - Commercial Products and Commercial Services"

The following will be included in the solicitation (using estimated dates that are subject to change):

SUBMISSION OF PROPOSALS (BEST VALUE/TRADE-OFF)

INSTRUCTIONS TO OFFERORS

I. GENERAL

All proposals shall be submitted electronically via email as email attachments to the solicitation point of contact, John Favata at john.d.favata.civ@us.navy.mil. All proposals are due NO LATER THAN 4:00 PM Philadelphia Time on 30-April-2026 to john.d.favata.civ@us.navy.mil.

Any other method of delivery (e.g., hard copy, CD, thumb drive, portal, emailed hyperlink, hand-carried, etc.) will not be accepted. Proposals shall be received no later than the DATE and TIME FOR RECEIPT OF PROPOSALS specified in the solicitation. Offerors shall make all efforts to confirm receipt of proposals PRIOR to the date and time specified for receipt of proposals. Proposals not received by the solicitation point of contact, Mr. John Favata, by the date and time specified for receipt of proposals will be considered late, and will not be considered for award. Proposals shall comply with the detailed instructions for the format and content of the proposals contained herein; proposals that do not comply may be considered unacceptable and may render the proposal ineligible for award. All electronic files and versions of proposals shall be submitted in Adobe Acrobat and Microsoft Office Suite (Excel) formats and be in an unlocked and searchable format. The offeror shall be responsible for ensuring that its submissions are virus free. NOTE: Each proposal submission email shall not exceed 10 Megabytes (MBs). If the proposal package exceeds 10 MBs, the offeror shall submit multiple emails so that each email is under 10 MBs. If the offeror submits multiple email submissions, they should label them accordingly (i.e., RFP N0018926RB002, Volume II - Non-Price Proposal - email 1 of 3, etc.).

Potential offerors are encouraged to carefully review all solicitation requirements and, if they have questions concerning the solicitation, should submit one consolidated list of questions concerning the solicitation via email to the solicitation point of contact, John D. Favata at john.d.favata.civ@us.navy.mil. The time and date for submission of questions is NO LATER THAN 12:00 PM PHILADELPHIA TIME on 07-April-2026. Questions should be submitted as early as feasible prior to the above date and time; questions received later may be answered at the discretion of the Navy.

Offerors shall submit their Proposals in two separate volumes as follows:

This volume shall address its Institutional Characteristics. This volume shall exclude any pricing information that would reveal the total pricing detailed in Volume II of the proposal.

Volume I - Non-Price Proposal

This volume shall address Phase I Institutional Characteristics, and Phase II consisting of Performance Approach, Academic Capabilities, and Past Performance. This volume shall exclude any pricing information that would reveal the total pricing detailed in Volume II of the proposal.

Each page of each copy of the non-price proposal should include the following legend:

Source Selection Information - See FAR 2.101 and 3.104

Volume II - Price Proposal

This volume must contain the following:

Solicitation cover sheet with appropriate blocks completed by the offeror.

-

Solicitation pricing pages completed by the offeror. (May be a stand-alone Excel file attachment.)

Acknowledgement of solicitation amendments pursuant to FAR 52.212-1 (if not previously acknowledged).

Representations and Certifications completed by the offeror in accordance with instructions contained elsewhere in this solicitation. If the offeror has completed all of the representations and certifications required by this solicitation in SAM (www.sam.gov) in accordance with FAR 52.212-3, then the offeror should so indicate in their response.

Due to the specialized nature of the work, there are no meaningful opportunities for subcontracting the principal requirements of the contract. The prime contractor will perform the essential educational services directly. Any potential subcontracted work (e.g., textbooks, online platform hosting) would be incidental and fall well below the thresholds that would necessitate a comprehensive subcontracting plan. Forcing the inclusion of a subcontracting plan would be an administrative burden without any practical benefit to small businesses. Further, the requirement necessitates the need for fully accredited academic institutions, and therefore no small business participation is anticipated with regard to subcontracts.

Each page of each copy of the price proposal should include the following legend:

The completion and submission of the above items will constitute an offer (proposal) and will be considered the offeror's unconditional assent to the terms and conditions of this solicitation and any attachments and/or exhibits hereto. Offerors shall respond to all requirements of the solicitation document. Offerors are cautioned not to alter the solicitation. Any affirmative exception to the material terms and conditions of the solicitation will constitute a deficiency (see FAR 15.001) which will render the offer ineligible for award. Alternate proposals are not authorized.

In the event any person who is not a bona fide employee of the offeror participated in the creation, formulation, or writing of any portion of the proposal, a certificate to this effect shall be included in Volume II of the proposal which shall be signed by an officer of the offeror. Such certificate shall identify the name of the person who is not a bona fide employee, that person's employment capacity, the name of the person's firm, the relationship of that firm to the offeror, and the portion of the proposal in which the person participated.

REQUIREMENTS FOR PROPOSAL CONTENT:

(1) Do not include CLASSIFIED data in your proposal.

(2) Introduction and Purpose - This section specifies the format that offers should use in proposals submitted in response to this solicitation. The intent is not to restrict the offerors in the manner in which they will perform their work but rather to ensure a certain degree of uniformity in the format of the proposals for evaluation purposes.

(3) Each volume should contain the following items in addition to the other information required by this solicitation:

Cover:

The cover should indicate the following:

Title of the proposal

Volume Number (I, II, or III)

Solicitation number

Name and address of offeror

Contractor point of contact (POC) with POC's email address and phone number.

Unique Entity Identifier (UEI) and CAGE of offeror.

Table of Contents: The table of contents should provide detail sufficient to allow the important elements to be easily located.

(4) Requirements for Style: Each offeror shall submit a proposal that clearly and concisely sets forth the contractor's response to the requirements of the solicitation. The proposal shall contain all the pertinent information in sufficient detail in the one area of the proposal where it contributes most critically to the discussion. When necessary, the offeror shall refer to the initial discussion and identify its location within its proposal.

(5) Page Limitations

Volume I: Non-Price Proposal Submission Guidelines

The "Non-Price Proposal," referred to as Volume I, is strictly limited to a maximum of 55 pages in total. This page count is all-inclusive, covering all content such as charts, diagrams, and other graphics.

The proposal consists of four key evaluation factors, each with a specific page limitation. The Offeror's submission for the Academic Capabilities section must be integrated into the complete Volume I package.

The cover letter, table of contents, acronym list (not to exceed one page each per volume) will not count toward the page limit. Pages submitted in excess of the page limitations described below will not be evaluated. The Navy may exercise discretion in determining which specific pages are considered to be in excess of the page limitations.

Each "page" is defined as one printed sheet, 8 1/2 " x 11", with at least one inch margins on all sides, using Times New Roman font with a point size of 12 or greater. Lines shall, at a minimum, be single-spaced. The only exceptions to the font size requirement shown above are that the headers and footers; charts, diagrams, and/or other graphics; and the "Past Performance Information Form" may be completed with a point size of 10 or greater. Pages shall be consecutively numbered. Multiple pages, double pages, or two-sided pages, will count as an equivalent number of 8 1/2" x 11" pages. The non-price factors shall have the following page limitations:

Breakdown of Non-Price Evaluation Factors

Evaluation Factor	Associated Form	Page Limit
Institutional Characteristics	Phase I Form	5 pages
Performance Approach	N/A	8 pages
Academic Capabilities*	Phase II Form	36 pages
Past Performance	Past Performance Info. Form	6 pages
Total		55 pages

*Note on Academic Capabilities: Offerors are permitted to propose a maximum of 18 distinct academic fields. Each proposed field must be detailed within the Phase 2 Academic Capabilities Form and is limited to two (2) pages per proposed field. The Academic Capabilities non-priced factor is limited to a maximum of 36 pages. (18 distinct academic fields x two (2) pages per proposed field = 36 maximum number of pages). Example: University proposes three (3) fields x two (2) pages per proposed field = 6 maximum number of pages for this specific non-priced factor.

The individual page limits for each evaluation factor will govern the length of the respective sections. The total length of Volume I will be the sum of the pages submitted for each of the four factors.

Note: use attached "Past Performance Information Form"

Volume II, "Price Proposal," is not page limited. However, the price proposal is to be strictly limited to price information.

PROPOSAL CONTENT, Volumes I and II:

(1) Volume I - Non-Price Proposal

The Non-Price Proposal consists of the following evaluation factors:

Phase 1:

Institutional Characteristics

Phase 2:

Performance Approach

Academic Capabilities

Past Performance

The selection of offerors for award will be conducted in two Phases. Phase I will consist of evaluation of the **Institutional** 1 Characteristics. Offerors who are determined to be Acceptable upon review of the **Institutional** Characteristics shall move on to Phase II. Offerors who are not determined to be Acceptable in Phase I will be notified that their proposal is no longer eligible for award and will not be included in the Phase II evaluation. Phase II will consist of the evaluation of Performance Approach, Academic Capabilities, Past Performance, and price. The non-price evaluation factors will be considered significantly more important than price. The non-price proposal evaluation factors are Performance Approach, Academic Capabilities, and Past Performance. All three factors are equally weighted. The non-price will be considered significantly more important than price. The Government's best-value award decision will be based upon the factors evaluated in Phase II.

If Performance Approach or Academic Capabilities are not rated at least Acceptable, the offeror is ineligible for award and the remaining factors of Volume II will not be evaluated.

ADDITIONAL NOTE: Statements such as "the offeror/contractor understands," "will comply with the performance work statement," "standard procedures will be employed," "well known techniques will be used" and general paraphrasing of the performance work statement are considered inadequate. The Non-Price Proposal must provide details concerning what the contractor will do and how it will be done. This includes a full explanation of the techniques, disciplines, and procedures proposed to be followed.

(a) Institutional Characteristics

The offeror shall certify they are included on the "Database of Accreditation Postsecondary Institutions and Programs found at: <https://ope.ed.gov/dapip/#/search-results> and Maintain regional accreditation. Offerors shall complete the Phase I Form to self-certify the subject institution is included in the Database of Accreditation Postsecondary Institutions.

(b) Performance Approach

NOTE: Performance Approach is rated on how the offeror plans to perform the required effort and is forward looking. The offeror's past performance without sufficient explanation of how it will be applied to the required effort is not relevant to, and may not be considered in the evaluation of, Performance Approach.

The offeror shall provide in detail, a forward-looking performance approach that will successfully accomplish the requirements of the solicitation and PWS. This shall include a discussion regarding the non-academic functional and ancillary services to include admission and enrollment, online course delivery, and student support for all awarded programs. The offeror's performance approach shall address how it aligns with the USNCC learning outcomes and needs of the services. In addition, the contractor shall provide a transition plan that discusses launching new programs and a transition plan. The transition plan discussion should address if the

institution closes entirely or closes a program (teach out), USNCC discontinues a program, a student leaves the USNCC program, or a student leaves the Service, (Transitioning Consortium Student), and if the Contract is terminated (Continuity of Services).

The offeror should describe any risks associated with the solicitation, including the PWS and any risks associated with implementation of the offeror's performance approach; describe any techniques and actions to mitigate such risks; and explain whether the techniques and actions identified for risk mitigation have been successfully used by the offeror.

The offeror should provide any other information the offeror considers relevant to the solicitation.

(c) Academic Capabilities

Offerors shall address their academic capabilities with regards to the academic program fields identified in the Phase II form: USNCC Academic Program Classification. To demonstrate this, offerors shall complete degree information form and provide all requested information. Each program submission cannot exceed 1 page each.

Failure of an offeror to provide the required information and level of specificity may result in the academic field and program not being considered for award.

The academic program capabilities will be evaluated in the aggregate in order to identify technical superiority of offerors who are capable of supporting numerous academic fields. The academic programs the contractor is determined to be capable of supporting will be incorporated into the resultant award as the programs in which a task order can be issued for.

(d) Past Performance

The offeror shall demonstrate relevant past performance or affirmatively state that it possesses no relevant past performance. Relevant past performance is experience within the past five (5) years that is the same as or similar to the scope and magnitude of the work described by this solicitation.

To demonstrate its past performance, the offeror shall identify up to **THREE (3)** of its most relevant contracts or efforts within the past five (5) years of the solicitation issuance date.

For purposes of this solicitation, a contract or effort is defined as a single contract or a combination of task orders (within the limits provided herein) placed under an IDIQ contract, a Blanket Purchase Agreement (BPA), or a Federal Supply Schedule (FSS). Offerors shall not submit the IDIQ contract, BPA, or itself as a reference, but shall provide the IDIQ/BPA/FSS number and the task order number(s). Offerors may submit a combination of no more than two (2) delivery orders (DOs), task orders (TOs), technical direction letters (TDLs), and/or technical area tasks (TATs) placed under an IDIQ or BPA as one of the three (3) past performance references. Such a combination must also meet the requirements stated above: each individual reference in the combination must have been performed within five (5) years of the solicitation issuance date. If a combination of DOs, TOs, TDLs and or TATs are used as a past performance reference, the offeror shall state the specific experience claimed, period of performance, and dollar value of each. A past performance reference that does not provide the level of detail required may not be evaluated. No more than one combination of DOs, TOs, TDLs and or TATs is permitted in the past performance submittal.

Offerors shall provide a detailed explanation demonstrating the relevance of the contracts or efforts to the requirements of the solicitation. Offerors should also cite the task sections or subsections of the PWS to which the past performance is relevant for each of the three (3) contracts or efforts.

The offeror may identify contracts or efforts for its proposed subcontractors among the three (3) past performance references provided in its proposal. If subcontractor past performance is provided as part of the three (3) most relevant contracts or efforts, the subcontractor past performance will be given weight proportional to the scope and magnitude of the aspects of the work under the solicitation for which the subcontractor is proposed. Therefore, the offeror's proposal shall detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform. It is the offeror's responsibility to adequately explain the relevance of a reference provided for a subcontractor's past performance to the effort that the subcontractor is proposed to perform under the solicitation. A past performance reference which does not detail clearly the aspects of the work in the solicitation that the subcontractor is proposed to perform may not be evaluated.

If the prime offeror or intended subcontractor/partner submits a past performance reference in which it served as a subcontractor, the prime/sub/partner shall detail clearly the work that it performed and the magnitude (dollar value) of that subcontracted work only. A past performance reference that does not differentiate between the overall contract effort and the subcontractor effort may not be evaluated.

With respect to joint ventures, the procuring activity will consider work done individually by each member of the joint venture as well as any work done by the joint venture itself previously. Joint venture references must meet the requirements stated above: each joint venture reference must have been performed within five (5) years of the solicitation issuance date. Additionally, if a joint venture member submits a past performance reference, the joint venture member shall detail clearly the work that it performed in that reference and the magnitude (dollar value) of that work. A reference that does not differentiate between the overall contract effort and the joint venture member's effort for that reference may not be evaluated.

In order to receive credit for the past performance of an affiliate, the proposal must clearly demonstrate that the affiliate will be meaningfully involved in performance of the solicited contract. That is, the resources of the affiliate, (e.g., workforce, management, facilities, or other resources that demonstrably contributed to the affiliate's performance on the submitted project(s)) will be provided or relied upon by the contractor for contract performance on the solicited requirement to an extent that warrants attribution of the affiliate's past performance to the offeror. **While there may be multiple ways to demonstrate meaningful involvement, generally reach back capability to the affiliate's or common parent's resources alone does not establish meaningful involvement.** The Agency will not consider an affiliate's record where that record does not bear on the likelihood of successful performance by the offeror. The offeror should also describe the relationship between the offeror and the affiliate. If the offeror purchased or merged with the affiliate, the offeror should state the date of purchase/merger and whether the affiliate's personnel and resources were retained by the offeror after the purchase/merger. The Agency will assess the narrative to determine whether, and to what degree, to attribute the affiliate's past performance to the offeror. If the proposal lacks sufficient detail to establish meaningful involvement by the affiliate, the Agency, at its discretion, may decline to consider the past performance of the affiliate in the evaluation.

Failure of an offeror to provide the required information and level of specificity may result in the contract reference not being evaluated.

The past performance references will be evaluated in the aggregate in order to allow offerors who may not have the entire scope and magnitude of the requirement under one individual contract to still be considered acceptable if experience with the full scope and magnitude of the requirement can be demonstrated within the allotted number of references as described above.

The Past Performance evaluation will result in a past performance confidence assessment.

The Government reserves the right to obtain information for use in the evaluation of past performance from any and all sources including sources outside of the Government. When an offeror is determined to have relevant past performance, the quality of its relevant past performance will be evaluated. Offerors lacking relevant past performance history will not be evaluated favorably or unfavorably under the Past Performance factor. However, the proposal of an offeror with no relevant past performance history, while not rated favorably or unfavorably for past performance, may not represent the most advantageous proposal to the Government and, thus, may be an unsuccessful proposal when compared to the proposals of other offerors. The evaluation of Past Performance is separate and distinct from the Contracting Officer's responsibility determination. The assessment of the offeror's past performance will be used as a means of evaluating how capable the offeror is of successfully accomplishing the requirements of the solicitation. In determining the rating for the Past Performance evaluation factor, the Government will give greater weight to the contracts or efforts which are determined to have greater relevance to the solicitation. An offeror whose past performance demonstrates either a low expectation or no expectation that the offeror will be able to successfully perform the required effort will be considered ineligible for award.

The offeror should complete a "Past Performance Information Form" - which is included as a separate attachment to the solicitation - for each reference submitted. The forms will count toward the non-price proposal page limit described above. For additional information regarding a particular reference beyond that which will fit on the form, the offeror may continue onto another sheet of paper. Such continuation sheet(s) for submitted references will count toward the non-price proposal page limit. Only a single set of up to **THREE (3)** references shall be submitted.

(2) Volume II - Price Proposal

The Price Proposal in Volume II shall include the solicitation pricing pages completed by the offeror. The solicitation pricing pages completed by the offeror along with the completed Attachment IV "Pricing Spreadsheet."

Each successful offeror will receive an Indefinite Delivery/Indefinite Quantity (IDIQ) contract with a preestablished maximum ceiling of \$342,000,000. For source selection, best-value tradeoff, and price analysis purposes the Government will consider the offeror's credit hour rates, applicable fees, materials, and fully burdened rates for the program management and IT Data Support CLINs. This approach ensures a fair evaluation regardless of the number of programs an offeror provides.

The price proposal shall include all elements of price, and such other price information considered appropriate to support the offeror's proposal. No price information shall be submitted in any other section of the proposal. Price proposals shall be held firm for one-hundred-eighty (180) days. The price information shall be completed in accordance with the following:

1. A completed and signed Standard Form (SF) 1449 "Solicitation/Contract/Order for Commercial Products and Commercial Services."

1. Pricing information shall be submitted in Microsoft Excel format. Pricing narrative shall be provided in Microsoft Word /PDF.

2. A completed and signed page 1 of the most current version of the solicitation and any amendments.

3. Unless completed in SAM, RFP Section, Representation, Certification and Other Statements of Vendors - completed by the offeror. This includes the certification requirements of FAR 52.212-3.

For the purpose of preparing a price proposal, the offeror shall assume that the resultant IDIQ contract will consist of the following five-year base ordering period and one (1) six-month option ordering period (to account for the FAR 52.217-8 "Option to Extend Services" clause):

The contract term will consist of a five-year ordering period commencing on 1 August 2026 ordering period beginning 8/1/2026 or date of award whichever is later, through 60 months thereafter. The contract resulting from this acquisition strategy will also include FAR clause 52.217-8 "Option to Extend Services," which allows for an additional six (6) month optional ordering period.

*** The option ordering period represents services covered under the FAR 52.217-8 "Option to Extend Services" clause - which shall not exceed six (6) months.

An economic price adjustment clause will be included in the contract to allow for specified contingencies such as changes in tuition rates and fees set by the State boards of various commonwealths and states.

A price realism analysis will not be conducted.

IMPORTANT NOTES:

(1) The pricing information shall be completed in accordance with the following:

- (a) The solicitation pricing pages completed by the offeror along with the completed Attachment I "Pricing Spreadsheet." The proposed fully burdened Firm Fixed Price credit hour rates shall be provided by the offeror in Attachment I "Pricing Spreadsheet" of the solicitation and will be incorporated into the resultant contract as the ceiling rates for each labor category. All proposed rates shall be expressed as a value and be rounded to two decimal places (no formulas). Failure to include a credit hour rate within Attachment I "Pricing Spreadsheet" may deem an offeror to be non-responsive. Offerors are to identify any economies of scale that would lower their credit hour rate at task order issuance.

The credit hour rate prevails if a discrepancy exists between the credit hour rate and the extended price. The contractor's price shall be inclusive of all the contractor's direct costs, indirect costs, and profit and shall include all costs associated with providing the services described in the PWS and the solicitation.

Note on Task Order Pricing: The prices or credit hour rates that are in effect on the date any task order is issued by the Government shall apply for the full period of performance of the task order. If the task order also includes option periods, the rates that are in effect on the date the option period is exercisable shall apply for the full period of performance of the option period.

(b) All price and price supporting information shall be contained in the price proposal. No price or pricing information shall be included in any other volume. Offerors are responsible for submitting sufficient information to enable the Government to fully evaluate their price proposal.

(c) The following amounts (including applicable burdens) will be utilized by the Government for evaluation purposes only in determining the total evaluated price of a proposal.

Not applicable

(f) Any and all subcontracts identified in the non-price proposal shall be identified and priced in the price proposal. Subcontracts (regardless of dollar value) shall be adequately documented. Subcontractor price breakdowns may be submitted in separate emails.

NOTE: The prime contractor shall provide a list of all its subcontractors, the type of contract it will hold with each subcontractor (i.e. CPFF, FFP, LH, etc.), the value of each subcontract and the cognizant Security Office (name, address, and identification code) for each subcontractor.

(End of provision)
